## Investment in Pakistan

### An Introduction

*Investment in Pakistan is a booklet prepared by KPMG to provide information on a number of subjects relevant for investment planning or doing business in Pakistan.*

*This booklet provides a summary of the rules, regulations and tax laws applicable in Pakistan. Although covering many relevant areas, it cannot be exhaustive, and it is not designed to provide the complex and detailed information required for decision-making in relation to investments.*

*Pakistan is fast adapting to the challenges of globalisation as an emerging market. Its economy was able to weather severe storms in FY2008-09.*

*Pakistan is a land abundant in business opportunities for investors awaiting eager exploration of markets as well as identifying and mitigating inherent business risks.*

*This guide offers an introductory overview of key investment determinants and considerations pertaining to investing in Pakistan, drawing from KPMG's diversified experience in Pakistan. For our latest publications please browse our web site; [www.kpmg.com.pk](http://www.kpmg.com.pk).*
